

VINAY GORANTLA

HSBC

usability, performance, and design.

Candidate Profile

CORE SKILLS

- > DATA VISUALIZATION & REPORTING : POWER BI
- DAX POWER QUERY
- DATA MODELING
- PERFORMANCE TUNING
- WORKSPACE MANAGEMENT
- DASHBOARD DEVELOPMENT
- TABLEAU LOD EXTRACTS
- DASHBOARD OPTIMIZATION
- EXCEL ADVANCED
- ANALYTICS PIVOT TABLES
- VBA KPI DESIGN
- DATA STORYTELLING
- > DATA ENGINEERING & ETL/ELT : SQL

AT A GLANCE

- 6+ Years of professional experience
- 2 Roles across different companies

PROFESSIONAL EXPERIENCE

- HSBC** Apr 2021 – Jun 2023
 - Domain: Finance
 - Developed advanced Power BI dashboards supporting financial analytics, risk reporting, and executive decision- making using optimized DAX and data models.
 - Designed scalable data models integrating multiple financial data sources ensuring consistency, accuracy, and governance across reporting layers.
 - Developed data-driven applications using low-code platforms (Power Apps) enabling business users to manage workflows, data entry, and reporting similar to QuickBase use cases.
 - Collaborated with business stakeholders to gather requirements and translate them into scalable low-code solutions with optimized data models.
 - Worked with financial datasets including transactions, risk metrics, and business KPIs in a banking environment to support reporting and decision-making.
- General Motors** Nov 2017 – Mar 2021
 - Agile/Scrum
 - Domain: Manufacturing
 - Designed and developed interactive Power BI dashboards and Tableau visualizations to analyze manufacturing
 - KPIs, supplier performance, and warranty claims, enabling data-driven operational improvements.
 - Built scalable data models using star and snowflake schema optimized for Power BI datasets while ensuring compatibility with Tableau reporting layers for cross-platform analytics consumption.
 - Built reporting solutions integrating multiple data sources (APIs, Excel, databases) to support analytics and operational dashboards.
 - Handled large-scale manufacturing datasets and optimized reporting performance enabling faster decision- making for operations teams.
