Dear Hiring Manager,

I am writing to express my interest in the remote role of **General Virtual Assistant**.

With over 10 years of experience supporting leadership, coordinating teams and managing records across the government of Trinidad and Tobago and corporate environments, I have built a reputation for being someone teams can rely on to keep things organized and ensure important work gets done.

In my current role with the Government of Trinidad and Tobago, I coordinate reporting and communication for more than 120 employees across 14 locations while liaising with senior leadership, including Government Ministers and the Permanent Secretary. Much of my work focuses on maintaining structure, keeping documentation accurate and ensuring information flows clearly between teams so daily operations run smoothly.

Earlier in my career I also supported a school founder directly in an administrative and secretarial capacity where I managed scheduling, email communication and general administrative coordination. These experiences helped me develop strong executive support skills while learning how to anticipate needs and keep multiple priorities organized.

I am comfortable using tools such as Microsoft Office, Google Workspace, Canva and virtual communication platforms like Zoom, Teams and Google Meet. While I have not yet worked directly with CRM platforms, I learn new systems quickly and I am very open to training so I can support your team effectively.

What I bring to a team is reliability, attention to detail and a genuine commitment to making sure things are handled properly. I take pride in being a dependable support person who helps leaders stay organized and keeps operations running smoothly.

Thank you for considering my application. I would welcome the opportunity to contribute my experience and work ethic to support your team remotely.

Sincerely,

Alana D'Andrade
