Bilingual: English & French

PROFESSIONAL SUMMARY

Bilingual IT Support Specialist with 6+ years of hands-on experience delivering high-impact IT, assets, and end-user support across healthcare, legal, banking, retail, and industrial environments. Known for my empathetic, patient-first approach and strong customer service mindset, I thrive in fast-paced settings where timely support and discretion are essential. I have supported clinical systems, EMR/PACS, POS devices, and enterprise hardware/software platforms, always ensuring smooth operations and compliance with HIPAA, security, and internal policies. I take pride in resolving complex issues quickly, guiding users with compassion, and maintaining strong relationships with both end users and IT teams.

KEY SKILLS & TECHNOLOGIES

Customer-Focused IT Support

- High-touch, VIP Support with Empathy and Patience
- Conflict Resolution & Non-Technical User Communication
- ServiceNow Ticketing & Incident Management
- Troubleshooting: Hardware, Software, Network, and Mobile Devices
- Multi-Site & Remote User Support

Healthcare & Enterprise IT Systems

- EMR Platforms: Epic, Cerner, eClinicalWorks
- PACS : Fuji Synapse, GE, Philips, Siemens
- Clinical Device Configuration & Inventory
- HIPAA Compliance & Documentation

- Windows, macOS, Linux, iOS
- Microsoft 365 (Word, Excel, Teams, Outlook)
- Networking: TCP/IP, DHCP, DNS, VPN, VLAN
- Imaging & Deployment Tools: WIMS, SCCM, Toughbook

Industry Experience

- Healthcare: Clinics, Radiology Labs, EMR Support
- Banking: Secure Device Management, Compliance & Encryption
- Legal: Discreet VIP Support, Asset Control
- Retail: POS Systems (Square, Clover, Toast, Shopify, NCR, Micros)
- Industrial: Field Device Support, Rugged Laptop Imaging

Soft Skills

- Highly Empathetic and People-Oriented
- Active Listener & Clear Communicator
- Team Player with Leadership Capability
- Problem Solver with Attention to Detail
- Fluent in English & French

PROFESSIONAL EXPERIENCE

Desktop Support Technician (Short-Term Contract)

Barnes & Thornburg LLP – Dallas, TX

July 2025 (2-week contract ending July 26, 2025)

- Provided high-level IT support for attorneys, legal staff, and VIP stakeholders at a prestigious national law firm located in downtown Dallas (2121 N. Pearl Street, Suite 700). Delivered both in-person and remote support across multiple departments to ensure seamless daily operations.
- Reimaged and deployed laptops and desktops to Windows 11, joined devices to the corporate domain, and configured network policies while maintaining asset compliance using Microsoft Intune and Entra ID.
- Leveraged Microsoft Intune to remotely push, update, and monitor software packages and security patches across firm-issued devices. Ensured full endpoint compliance and accessibility for roaming and onsite employees.
- Used ServiceNow to triage, manage, and resolve incoming support tickets, providing detailed documentation and timely updates to users while coordinating escalations for unresolved technical challenges.
- Assisted attorneys and high-profile staff with IT issues in a fast-paced legal setting, including device troubleshooting, password resets, printer problems, application support (e.g., Outlook, Teams), and network/VPN access.
- Performed daily pre-checks and setup for conference room equipment including AV (audio/video) systems, Zoom/Teams integration, and display configurations to ensure smooth executive meetings and client presentations.
- Maintained inventory logs, tracked asset deployment and returns, and supported IT equipment lifecycle management across multiple legal departments.
- Ensured secure device handling, strict confidentiality of sensitive data, and adherence to internal compliance and privacy policies during all IT support activities.

- Proactively identified areas of improvement within the desktop support workflow and communicated them to team leads for future implementation.

Technologies Used: Windows 11, Microsoft Intune, Microsoft Entra ID, Active Directory, ServiceNow, Office 365, VPN, AV/VC systems, Zoom, Microsoft Teams, Outlook, Printers/Scanners, Asset Management Tools

IT Desk Technician – Santander Bank, North Richland Hills, TX

Nov 2024 – June 30, 2025

- Delivered in-person and remote support to employees in banking departments including executives, branch staff, and back-office teams.
- Reimaged and deployed laptops/desktops using WIMS and SCCM to Windows 11, configured BIOS settings, joined to domain, and ensured compliance with internal security policies via Intune and Entra ID.
- Created and managed UPS shipping labels for newly imaged or replaced devices using the UPS portal, coordinating delivery across nationwide banking branches.
- Used ServiceNow to manage tickets and asset records, documented user issues, updates, device returns, assignments, and escalations.
- Supported end users with Outlook, Teams, OneDrive, Excel, and Word; resolved issues related to BitLocker, Wi-Fi, VPN access, and multi-factor authentication.
- Managed and tracked device lifecycle and assignments using Entra and ServiceNow to maintain asset visibility and audit readiness.
- Assisted in device encryption validation, endpoint protection (CrowdStrike, Trellix), and policy enforcement to ensure compliance with Santander's strict banking security standards.
- Provided professional white-glove support to directors and executives; ensured devices were prepped, delivered, and serviced discreetly and securely.

Technologies Used: Windows 11, Intune, Entra, AD, VPN, WIMS, SCCM, Office 365, UPS Portal, BitLocker, MFA, ServiceNow, MDM tools

Senior Help Desk Specialist – TAMBENA LLC, Remote (Atlanta, GA)

Apr 2022 – Nov 2024

- Delivered senior-level help desk and infrastructure support for healthcare, legal, and enterprise clients. Provided L2/L3 support and acted as an escalation point for critical service-impacting issues.
- Remotely configured and deployed laptops (HP, Dell, Toughbooks) using SCCM, Intune, and manual builds depending on client need; performed patching and routine endpoint monitoring.
- Supported PACS systems and EMR tools used by healthcare clients; ensured smooth access and functionality across remote locations with proper compliance and secure handling.
- Managed mobile device and endpoint policies using Microsoft Intune and Azure/Entra; enforced security configurations, ensured encryption, antivirus, VPN, and MFA across remote fleets.

- Provided onboarding and training for new hires, walking them through device setup, MFA registration, and remote software tools.
- Maintained ticketing and knowledge base documentation in ServiceNow and Confluence, documenting common fixes, SOPs, and technical runbooks.
- Resolved issues across Windows, macOS, VPNs, VOIP tools, Outlook mail sync, network printing, driver issues, and license reassignments.

Technologies Used: Microsoft Intune, Entra/Azure, AD, SCCM, Confluence, Office 365, Windows/macOS, VPN, Remote Desktop, CrowdStrike, MFA, PACS, EMR, ServiceNow

IT Help Desk Analyst – Yulys, Remote (Atlanta, GA)

Jul 2018 – Mar 2020

- Supported clinicians and administrative users in EMR environments, troubleshooting login and workflow issues.
- Worked with PACS systems and radiology tools to ensure smooth device-to-network integration across clinics.
- Demonstrated exceptional communication and patience when guiding non-technical users through technical fixes.

IT Support & Customer Service – Mairie de Marcoussis, France (Hybrid)

Aug 2016 – Jun 2018

- Delivered first-line IT support to users across multiple departments with professionalism and discretion.
- Managed password resets, hardware swaps, and onboarding device setups while providing respectful and helpful customer support.
