PROFESSIONAL SUMMARY

Senior Software Engineer with **7+ years of experience** building, modernizing, and scaling enterprise-grade web and desktop applications. Strong expertise in **.NET 8 / ASP.NET Core Web APIs**, SQL Server, Angular, and React, Python with hands-on experience in **AI-powered automation, MCP Servers, and LLM-based platforms**. Proven track record in legacy modernization, performance optimization, CI/CD implementation, and leading small teams. Known for ownership, clean architecture, and delivering production-ready systems aligned with business goals.

CORE TECHNICAL SKILLS

Backend & APIs

C#, .NET 8 / .NET Core, ASP.NET Web API, ASP.NET MVC, MCP Servers, RESTful APIs, WCF, LINQ, Entity Framework, Python

AI & Automation

LLM-based data extraction, AI-powered API testing, intelligent automation workflows, Agentic AI

Frontend

Angular, React, JavaScript, jQuery, HTML5, CSS3, Bootstrap

Databases

SQL Server, PL/SQL, query optimization, indexing, performance tuning

Desktop Technologies

WPF, Windows Forms

DevOps & Cloud

Azure DevOps, CI/CD Pipelines, Git, AWS, Azure

PROFESSIONAL EXPERIENCE

Senior Software Developer

ProductSquads Technolabs LLP – Ahmedabad

Feb 2024 – Present

- Leading development and enhancement of enterprise-scale applications using **ASP.NET Core / .NET 8, Web API, React, Angular, Python, and SQL Server**
- Designing and implementing **Agentic AI systems** using LLMs to automate multi-step workflows and decision-making processes
- Built an **LLM-based Data Extraction Platform** to convert unstructured documents into structured, schema-driven JSON with confidence scoring
- Developed a **custom AI-powered API Testing Platform**, reducing manual regression testing effort and improving release stability
- Hands-on experience with **prompt engineering, tool calling, agent orchestration, and MCP Servers** in production environments
- Modernized legacy systems, delivering improvements in **performance, scalability, and security**
- Implemented and maintained **CI/CD pipelines using Azure DevOps**, enabling faster and reliable deployments
- Collaborated closely with cross-functional teams to deliver high-quality, business-critical solutions
- Resolved **production-critical issues** with strong root-cause analysis and long-term fixes

Software Engineer

Metamorphick Solutions Pvt. Ltd. – Mumbai

Client: Toyo Engineering

Apr 2023 – Dec 2023

- Developed and enhanced large-scale **industrial web and WPF applications**
- Worked extensively with **C#, .NET Core, MVC, WCF, SQL Server, and WPF**

- Led a small team, handling task planning, code reviews, and delivery ownership
 - Delivered phase-wise, production-ready releases aligned with client requirements
 - Participated in requirement discussions and client coordination
-

Software Engineer (Freelancer)

Apr 2022 – Apr 2023

- Designed and developed **accounting and business applications** using .NET Core, MVC, Web API, and SQL Server
 - Owned **end-to-end delivery**: requirements, development, deployment, and post-release support
 - Delivered scalable, maintainable solutions with fast turnaround on enhancements and bug fixes
 - Worked remotely with multiple clients and distributed teams
-

Software Developer

Tripta Innovations Pvt. Ltd. – Surat

Dec 2018 – Mar 2022

- Developed and maintained **web and desktop accounting platforms**
 - Technologies: Clipper, Harbour, C++, C#, .NET Core, MVC, SQL Server
 - Led a team of 2 developers, improving delivery timelines and code quality
 - Built complex reports, new business modules, and third-party API integrations
 - Played a key role in **legacy system enhancement and performance optimization**
-

CERTIFICATIONS & AI LEARNING

- **AI & Generative AI Certification** (Dec 2025)
- Hands-on training in **LLMs, Prompt Engineering, Agentic AI, and Intelligent Automation**

- Applied certification learning directly to production-grade AI systems and internal platforms
-

EDUCATION

Bachelor of Engineering – Information Technology

Vishwakarma Government Engineering College (VGEC), GTU | 2013 – 2017

Higher Secondary (Science)

GSEB, Surat | 2011 – 2013

ACADEMIC PROJECTS

- Hospital Service Management System – C#, .NET, SQL Server
 - E-Commerce Delivery Platform – PHP-based web application
-

KEY STRENGTHS

- Strong problem-solving and system design skills
 - Ownership of complex, business-critical systems
 - Team leadership and mentoring
 - High adaptability and fast learner
 - Excellent debugging and performance optimization capabilities
-
