Reporting to – Senior Vice President

The Numbers: Leading a team of **220+ FTE's** generating **yearly revenue exceeding US\$ 5.25MN** from Direct Businesses as well as Business clients of Accountancy Practices spread **across 30+ countries** located in the continents of Europe, North America, Africa and Asia in addition to leading onshore and offshore Transitions, Migrations & Implementations. I consistently achieved a **GP Margin in excess of 55%** for my entire team of 220+ FTE's. My efforts at Upselling, cross-selling and conducting organic sales earned my organization a consolidated revenue of **US\$ 1.30 MN**

Reverse Transition from Philippines based GBS to QX Accounting Services: Migrated the full end-to-end Operations (including R2R, P2P, O2C, FP&A, Treasury, Compliance, HRIS, Contract Management, Payroll & Software Development) of an EU domiciled organization's GBS based in Philippines. The Philippines based GBS served the Ireland based Parent Company including the individual business entities of UK, Poland, Sweden, Denmark, Germany as well as US & Canada. My main key metrics were as under

- Led the development and execution of a comprehensive Treasury Operational Excellence strategy for the GBS being transferred focusing on process optimization, process refinement and standardization.

- Defined and tracked key efficiency metrics and implemented projects to achieve targeted efficiency gains and cost savings (37% efficiency and 56% cost savings over an annualized period)

- Partnered with functional HOD's in the EU to establish robust business cases for technology investments or process changes that deliver a quantifiable return on their investment (ROI).

- Designed, implemented, and maintained a comprehensive set of operational performance metrics (KPIs/SLAs) and dashboards for the client providing clear visibility into the effectiveness, efficiency, and quality which they could compare against their Philippines based GBS

- Developed and embedded a robust Operational Risk Management framework identifying potential failure points in processes and implementing mitigation strategies.

-Managed complex large-scale transitions across multiple countries and BU's involving significant scope, FTEs and parallel transformation opportunities in the domain of Capital Restructuring of Companies, Multi-currency Management Accounting, Consolidation, Foreign Exchange Analysis, R2R, P2P, O2C, International Indirect taxation, Treasury and banking functions as well as MIS Reporting and Financial Analysis within the framework of IFRS, US GAAP, IGAAP and IAS
