PROFESSIONAL SUMMARY

Senior software developer with 6+ years of experience specializing in writing clean, efficient, and maintainable code within deadlines. Highly motivated, adaptable, and eager to learn new technologies to deliver impactful and innovative solutions.

PROFESSIONAL EXPERIENCE

- Senior Software Engineer

FunicTech

20-Nov-2023 to 28-Feb-2025

 - Created, updated, upgraded and maintained geospatial APIs as contractor with Liberty Mutual
 - Worked with aws-cdk-lib and boto3 to maintain entire AWS infrastructure
 - Helped with AWS ECS migration to Kubernetes with Helm Charts
 - Created Lambda functions in Python, Node and Java
 - Created UI in React Js
 - Implemented dataload workflow using Event Driven architecture and made the dataload fault tolerant
 - Added new services from scratch using Microsoft EntraID for auth, ApigeeX for API management, Datadog for logging and AWS lambda for computation
 - Implemented CI/CD pipeline using Github Actions
 - Tested and updated DR environments
- Software Developer

OpenXcell

05-Dec-2022 to 18-Aug-2023

 - USCCB Project: Made Architecture Design including tech stack and code flow diagrams for green field project
 - Designed Nest Js and FastAPI architecture from scratch
 - Designed and maintain both Relational and Non-Relational Databases
 - Created CMS portal using React Js
 - Created APIs for both Mobile application and CMS portal
 - Reader.io Project: Designed architecture for backend in Express Js (Typescript)
 - Dockerized server on AWS EC2 with Auto Scaling and Load Balancing for scalability
 - Created interactive UI using React Js with Antd Library
 - Wrote unit test using Jest
 - Integrated Stripe to enable payment processing
 - Used Agile methodology, actively participating in Scrum ceremonies and managing tasks through Jira
 - Designed and supervised MongoDB Atlas database
- Fullstack Developer

Tatvasoft

01-Jan-2020 to 30-Nov-2022

 - Worked on Equals Group - UK based financial services, forex and banking platform for trading multiple currencies
 - Involved in design and development of new features using React for frontend and Node, Typescript, Python, GraphQL for serverless backend
 - Worked with Terraform to handle entire AWS infrastructure
 - Built and managed microservices leveraging multiple AWS services
 - Worked with multiple Databases like PostgreSQL and DynamoDB
 - Collaborated closely with on-site clients to design and build the application

CERTIFICATIONS

- AWS Solutions Architect
