

HARITHA KOYINENI

TECHNICAL SKILLS:

- Built responsive, cross-browser compatible UI components in Angular using RxJS, NgRx, and reusable @Injectable services for high-performance SPAs.
- [linkedin.com/in/harithak1122](https://www.linkedin.com/in/harithak1122)

Candidate Profile

KEY PROJECTS

- **Summary:**
Working on a cloud-native, microservices-based Case Management System for LTSS, enabling care coordination, eligibility verification, and service tracking. The platform ensures HIPAA compliance and real-time data exchange across providers, government agencies, and beneficiaries.
