PROFESSIONAL SUMMARY

Senior Software Engineer with 8+ years of experience designing, developing, and deploying scalable, high-performance applications across cloud-native and data-driven environments. Proven expertise in backend engineering (Python, FastAPI, Django), large-scale ETL pipelines, distributed systems, and full-stack development using React and TypeScript. Strong background in AWS architecture, database optimization, and observability with OpenTelemetry and New Relic. Experienced in building secure, resilient systems serving high-volume financial and enterprise workloads.

PROFESSIONAL EXPERIENCE

- Capital One via TekSystems — New York, NY

Full Stack Developer

August 2024 – Present

▶

● Contribute to the Enterprise Data Detection platform enabling automated discovery and classification of sensitive PII data across enterprise systems.

▶

● Designed and owned scalable AWS Glue (Spark) ETL pipelines processing GB-scale datasets from S3 and Snowflake/OneLake into Amazon RDS with idempotent upsert

▶

● Built serverless FastAPI microservices deployed on AWS Lambda delivering highly available and cost-efficient APIs.
- June

Goldman Sachs via ConsultAdd— New York, NY, Backend Data Engineer | June

Goldman Sachs via ConsultAdd— New York, NY, Backend Data Engineer
- ● Designed and

2024 – August 2024

▶

implemented an Equity Margin Loan data pipeline supporting

▶

mission-critical financial workflows.

▶

● Developed APIs using Python and internal SLANG language for financial business logic

▶

processing.

▶

● Architected scalable ETL pipelines loading structured and unstructured data into Sybase

▶

IQ and Snowflake.
- Nutrien Ag Solutions via loneq Inc— Loveland, CO, Senior
Software Engineer

June 2021 – March 2024

▶

● Designed and developed scalable Agri-tech platforms supporting crop planning and agricultural analytics.

▶

● Built secure backend services using Django and Python powering web and mobile

▶

applications.

▶

● Delivered full-stack features using React, TypeScript, Angular, Redux, GraphQL, and

▶

Material UI.
- August 2014 – July

United Commercial Bank — Bangladesh, Software Developer | August 2014 – July

United Commercial Bank — Bangladesh, Software Developer

▶

● Developed REST APIs using Flask and SQLAlchemy for data center management

▶

● Built frontend applications using React, JavaScript, and HTML/CSS.

▶

● Optimized backend performance using Python functional constructs and efficient bulk

▶

data operations.
