Roles across
different companies

PROFESSIONAL SUMMARY

Highly technical Full Stack Lead QA with over 15 years of experience in architecting automated testing solutions across complex web ecosystems. Expert in building custom hybrid frameworks from scratch, integrating end-to-end testing into CI/CD pipelines, and leading high-performing Agile teams to deliver defect-free software. Proven ability to bridge the gap between development and quality by performing deep-dive backend, API, and database validation. PSM certified with focus on servant-leadership, team dynamics, and agile principles. Proven expertise in leading teams, designing test plans, managing Jira bug cycles, and reducing bug leakage in Agile environments. Skilled in SQL, API testing, and coordinating with stakeholders to deliver high-quality software.

PROFESSIONAL EXPERIENCE

● SS&C Technologies, Hyderabad | [06 2023] – Present

- ▶ Project 1: DomaniRx – Healthcare and pharmacy benefits (PBM) platforms
