PROFESSIONAL SUMMARY

Senior software developer with 6+ years of experience specializing in writing clean, efficient, and maintainable code within deadlines. Highly motivated, adaptable, and always eager to learn new technologies and skills to deliver impactful and innovative solutions.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

FunicTech

20-Nov-2023 to 28-Feb-2025

- Maintaining and updating backend APIs with daily client scrum calls
- Working with aws-cdk-lib and boto3 for AWS infrastructure maintenance
- Migrating AWS ECS to Kubernetes with Helm Charts
- Creating Lambda functions in Python, Node and Java
- Implementing CI/CD pipeline using Github Actions

Senior Software Engineer

OpenXcell

05-Dec-2022 to 18-Aug-2023

- Designed architecture for NestJS and FastAPI backend from scratch
- Created CMS portal using ReactJS
- Designed and maintained both relational and non-relational databases

Senior Software Engineer

Growexx

05-Dec-2022 to 18-Aug-2023

- Designed backend architecture in ExpressJS (TypeScript)
- Dockerized server on AWS EC2 with auto scaling and load balancing
- Created interactive UI using ReactJS with Ant Design library

Fullstack Developer

Tatvasoft

01-Jan-2020 to 30-Nov-2022

- Developed new features using React for frontend and Node, TypeScript, Python, GraphQL for backend
- Worked with Terraform for AWS infrastructure
- Built and managed microservices leveraging multiple AWS services
- Collaborated closely with on-site clients for application design
