

VINEET SHARMA

AUTOMATION ARCHITECT | PLAYWRIGHT | GENAI-DRIVEN QA
| CI/CD LEADER

Candidate Profile

CORE SKILLS

- AUTOMATION & TESTING
- PLAYWRIGHTSELENIUM
- RESTASSURED CUCUMBER
- BDDTESTNG
- API TESTINGJAVASCRIPT
- JAVAPYTHON
- CI/CD & DEVOPSJENKINS
- GITHUB ACTIONSDOCKER
- AWS TEST MANAGEMENT
- JIRAXRAY
- CUCUMBER INTEGRATION
- AGILEAI / GENAI IN QA
- PROMPT ENGINEERING
- AI TEST CASE GENERATION
- NLP VALIDATION
- TOOLS: CHATGPTGEMINI
- COPILOT

EDUCATION

M.Sc. (IT), Punjab Technical University

AT A GLANCE

- 13+ Years of professional experience
- 4 Roles across different companies

PROFESSIONAL SUMMARY

Automation Architect with 15 years of QA experience, including 10+ years in automation and 3+ years in Playwright. Proven expertise in building scalable test frameworks across Healthcare, Banking, CRM, and eCommerce domains. Specialized in Playwright (JavaScript), Selenium, API automation, and CI/CD pipelines, with strong focus on AI/GenAI-driven testing—leveraging LLMs to automate test generation, enable self-healing frameworks, and accelerate QA delivery.

PROFESSIONAL EXPERIENCE

- HCL Technologies

Automation Technical Architect (Quest Diagnostics – Healthcare Domain)

Jan 2025 – Nov 2025

 - Architected Playwright + Cucumber automation framework for healthcare workflows (lab/reporting)
 - Designed and implemented CI/CD pipelines using GitHub Actions with parallel execution
 - Defined automation strategy and best practices across teams
 - Integrated Xray + Jira + automation pipelines for real-time traceability
 - Built Grafana dashboards for QA insights and reporting
 - Leveraged AI (Copilot, Agentic AI) to reduce script maintenance and improve efficiency
- 360Degree Cloud Technologies

Automation Specialist

Mar 2024 – Oct 2024

 - Designed Playwright (JS) BDD framework from scratch for Salesforce CRM
 - Automated CTI, SMS, and VOIP workflows
 - Defined automation strategy and improved test coverage
 - Applied AI-driven techniques to reduce manual scripting effort
 - Implemented Docker + Jenkins pipelines for scalable automation
- Iris Software

Automation SDET / Specialist

Sep 2019 – Mar 2024

 - Led automation for Citi Bank applications (eKYC, CDM, Credit Risk/FM)
 - Built Playwright & Selenium frameworks integrated with Jenkins CI/CD
 - Enabled parallel execution frameworks, improving release cycles
 - Conducted POCs and client demos for automation solutions
 - Applied AI/ML-based approaches to enhance automation
 - Senior Test Analyst (eCommerce Domain)
- 3CLogic Technologies Pvt. Ltd.

SDET / Module Lead (SaaS & CRM Platforms)

2009 – 2017

 - Built automation frameworks using Selenium, TestNG, Cucumber
 - Defined QA strategy for call center and SaaS platforms
 - Automated CRM integrations (SalesForce, Zoho, ServiceNow)
 - Developed API automation (RestAssured, JSON/XML validation)
 - Delivered 500+ automated test cases across applications
 - Led onboarding, QA planning, and integration testing
